

Guide to sending an RFA to Mater eConsultant

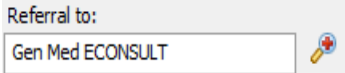

Suitable for patients (>16 years) that would normally be sent to adult, outpatients (category 1-3).

Do not need to be a Mater patient. NOW AVAILABLE - **Cardiology, Dermatology, Endocrinology, Respiratory/sleep, Neurology, Nephrology and Obstetric-Medicine.**

With Medical Objects running

From the patient file select File > New Document.

Select the template ECONSULT Request for Specialist Advice by double clicking on the template name: Medical Objects codes CE4101000RT (cardiology), EE4101000WW (endocrinology), DE4101000K9 (dermatology), RE4101000TH (respiratory), NE410100025 (nephrology), NE41010008F (neurology), & OE41010005A (obstetric medicine)

1. Select items for the RFA: patient demographics, medical history, current conditions, social and family history and pathology/investigation results if required.
2. Enter detail about the reason for seeking advice: 1-2 specific questions to the specialist.
3. Select all and then copy the template (Ctrl + A then Ctrl + C).
4. The *Referral Client Trinity* will recognise the template and will pop up a large “M” on the screen (bottom right corner).
5. Double click the “M” icon to open the referral window.
6. The referral details should auto-populate, and the Message Preview window will be displayed.
7. If details did not auto populate, search for ECONSULT  & select Send 
8. If you wish **to send correspondence or a photo** (as a pdf) with an RFA there is an option to **send a second message with only PDF attachments**: right click on the little “m” symbol in taskbar & select “create new message (PDF)”. Alternatively add the photo to a word document and save the document as a pdf, save this pdf to downloads on your computer. Then send the pdf as you would normally send a request for advice to the eConsultant by right clicking on the little “m” symbol in the taskbar & select create new message (pdf).
9. GPs to check for a reply from the Mater eConsultant. Replies will be received through Medical Objects and appear in the doctors Inbox. 
10. Replies should be received within 3 working days. Note: A reply may include a request for additional information.
11. Upon reviewing the reply, the GP is to take action to follow up with the patient to discuss the information provided by the Specialist.
12. The GP is to record the patient outcomes on the patient file as is usual practice

Why eConsultant?

- Access to specialist input for patients
- Avoid long wait times
- Save patients travel & time for OPD appointments
- Receive a response in an average of 2 days

Patient consults with GP who completes a request for advice (RFA)
